

QUALITY, ENVIRONMENT AND PREVENTION POLICY

REWARE MOBILE, S.L., is a company specialising in the purchase and sale of pre-owned handsets and technical service. The ReWare team seeks to offer access to the latest technology at an affordable price but with all the features of a new phone, in quality and warranty. ReWare, born in 2015 and since September 2017 also operates in the European market, it is also present throughout the Spanish geography through specialized shops.

REWARE MOBILE, S.L., is the most trusted seller and distributor of certified refurbished smartphones internationally. We offer our customers all the quality and reliability of a new device but at incredible prices and with a full 1 year warranty.

REWARE MOBILE, S.L., establishes that the Integrated Management Policy is based on: To do whatever is necessary to fulfil our responsibility towards our customers and satisfy their expectations, by guaranteeing our products, respecting the Environment and achieving a high level of Occupational Risk Prevention in all the processes of the development of our activity, complying with the current Legislation, taking into account the Technical Standards and Recommendations and counting on the participation of the Workers.

Policy, we have sought to ensure that:

- Adequate to the context of the organisation, its nature, appropriate to the environmental impacts of our activities and the magnitude of occupational health and safety risks.
- Include a commitment to continually improve all aspects of the System and pollution prevention for the improvement of environmental performance, as well as to provide safe and healthy working conditions and eliminate hazards arising from our work.
- Provide a suitable framework within which to define quality, environmental and occupational risk prevention objectives and targets, which will enable us to see if we are getting closer to complying with the Policy.
- Is communicated and understood throughout the company through its publication and explanation to staff, making them aware of their obligations for their own health and safety at work and the environmental specifications of each process for the development of activities with the minimum environmental impact.
- It is maintained and reviewed so that it is always appropriate to the work execution activity and to the quality, safety and environmental aspects.
- Is committed to ensuring that all human resources are trained and motivated to meet the objective of this Policy, encouraging the participation of workers and their representatives.

This Policy will contribute to building a better future for all and to gaining the recognition of our customers for the high standard of our products and services.
